

# **Norwegian Great Black-backed Gull**

**On 21<sup>st</sup> December 2004 I found the corpse of a ringed Great Black-backed Gull on the beach between Dumpton Gap and Broadstairs (TR 398665)**

**The ring number was OSLO 02987**

This information was sent to Nils Helge Lorentzen, the colour-ringing scheme coordinator in Norway. As the bird was not part of his project the details were then forwarded to Else Aasland, at the ringing unit, Savanger Museum.

**These are the details I got back, via e-mail (04.01.2005)**

**Great Black-backed Gull – *Larus marinus***

**Ringed as a nestling on 22.07.1994  
Tvistein, Larvik, Vestfold. NORWAY**

**58.57 N – 09.54 E**

*Dylan Wrathall – 04.01.2005*
